Bernhardt, alone, reserves the right to determine which products will be offered to each Authorized Retail Dealer. The availability of a price list or catalog does not necessarily imply, nor grant, an Authorized Retail Dealer access to all of the product listed.

BERNHARDT EXTERIORS

GENERAL INFORMATION

FABRIC GENERAL INFORMATION

INFORMATION REQUIRED ON ORDERS

Orders will be acknowledged and manufactured with standard specifications unless options are available and requested. To avoid delays in processing and errors, all orders should contain the following information:

1. Quantities for each item number.
2. Complete item number.
3. Complete fabric number and color.
4. Exteriors frames do not come standard with pillows, but can be ordered at an additional charge.

GENERAL ORDERING INFORMATION

FRAME NUMBER

- Orders are processed using the stated frame number on your purchase order. Although descriptions are helpful, we are not able to verify that the requested frame and description agree. Therefore, the frame number is the prevailing identifier. We encourage you to use the complete frame numbers and verify your order with the acknowledgment.

FABRICS

- Frames or fabrics may be dropped without notice. An exact color match to fabric samples or existing upholstered items cannot be guaranteed. Fabric of different dye lots may have variations in shading. To ensure the matching of items to be used as pairs, the item should be ordered at the same time.
- When ordering an item using fabrics of two different grades, the frame is priced at the higher grade of the two fabrics.

CANCELLATION

- Since all upholstery merchandise is produced to customer order, we cannot accept cancellation or delay after an order has been entered into production.

RETURNING MERCHANDISE

- Written permission must be received from Dealer Services before merchandise may be returned.
- Under no circumstances will we accept automatic customer charge backs which do not have prior authorization. Also, request for product returns must be accepted with a factory return authorization. Consult your Sales & Service Policy.

CREDIT

- Credit will not be allowed for goods returned without our written authorization as stated.

REPAIR POLICY

- Authorization for local repair of goods manufactured by Bernhardt Exteriors must be obtained from Dealer Services, otherwise, cost for such repairs cannot be honored.

TERMS

- Regular terms for all products are Net 30 from date of invoice, which is the same as the shipment date.
- Service charges of 18% per annum will be added to each past due transaction.
- When funds are owed to an account, a credit will be issued; deductions will not be allowed for any reason.
- All dimensions are approximate sizes.
- Prices subject to change without notice.
- F. O. B. Lenoir, North Carolina

WARRANTY

- Casegood and Upholstery product warranty information can be viewed at bernhardt.com/customercare.

CUSTOMER'S OWN MATERIAL (COM) ORDERING INFORMATION

Proper identification of your fabric is extremely important. If Bernhardt cannot identify your fabric, your order cannot be processed. Please use the COM order form when submitting a COM order. To avoid delays in processing your order, make certain the following information is provided with the shipment of your fabric.

1. Name of fabric.
2. Pattern name or number, description and color.
3. In cases of striped fabric, specify whether the stripe is to be applied vertically or horizontally on the item.
4. Sample of fabric properly marked face side and any special application instructions.
5. Specify fabric to be cut "Railroad" or "Up the Roll."
6. Confirm that fabric is rated for outdoor use and fire retardant free.

COM Disclaimer:

All fabrics submitted for production of Bernhardt Exteriors products must be rated for outdoor use. The responsibility for ensuring the applicability of any COM fabric for outdoor use rests solely with the dealer. Bernhardt will NOT be held responsible for indoor rated fabrics which are used outdoors. Use of improperly rated fabrics will void the Bernhardt warranty.

All fabrics submitted for production of Bernhardt Exteriors products must be fire retardant free.

Bernhardt is not responsible for any unclaimed COM 30 days after shipment of Bernhardt acknowledgment. It is the responsibility of the dealer to request the return of any excess COM on the initial order.

COM Yardage Requirements:

Specified with each item in this price list are the yardage requirements for plain fabrics 54" in width. These yardage amounts are based on fabrics which will cut Railroaded. These yardage amounts are to be used as a guide only. There will be some cases, due to unusual repeats or design of the fabric, when additional yardage will be required. In order to determine the amount of yardage required for production, please refer to the table below.

For fabrics with unusual layouts or specific cutting instructions, a full width repeat sample must be sent to Bernhardt's COM Department for yardage quote. Application of fabric, including placement of seams and choice of face side, will be determined by the factory unless specifically indicated on your order. To ensure correct application of the fabric, Bernhardt requires that a sample of the fabric be included with the COM order form. Bernhardt specifically disclaims responsibility for the tailoring of COM fabrics, particularly those which are transparent, stretch easily and are loosely woven.

FABRIC WIDTH	PLAIN RAILROAD	PLAIN UP THE ROLL	2"- 6"	7"- 14"	15"- 20"	21"- 27"	PATTERN REPEAT OVER 27"
54"	Price List Ydg.	Price List Ydg.	+10%	+20%	+25%	+30%	+40%
50" - 53"	+10%	+25%	+25%	+35%	+40%	+45%	+50%
45" - 49"	+25%	+30%	+30%	+40%	+45%	+50%	+55%
36"	+60%	+65%	+65%	+80%	+90%	+100%	+105%

This information is intended as a guide only. Match and repeat will dictate yardage requirements. All COM's will be cut and applied at Bernhardt's discretion unless special cutting instructions are included in writing with the order. The standard application of COM is with the face side of the fabric to the inside of the roll.

Up the Roll

Railroad

If fabric is of similar weave on both sides, face side should be marked. While fabrics are inspected for mill imperfections, some are difficult to recognize. Any obvious defects are questioned, however Bernhardt cannot be held responsible for defects, color inaccuracies or other flaws. Once COM is processed, Bernhardt assumes no responsibility for its overall appearance, flammability, normal durability, colorfastness or any other quality after upholstered on a Bernhardt frame.

NOTE: Unless specific cutting instructions are clearly stated on your order, Bernhardt reserves the right to use its best judgment concerning application of your fabric.

California Certification: All COM fabrics for orders being shipped to California must be accompanied by certification of compliance with the California Upholstery Furniture Flammability Regulations: Class 1 requirements of the U.S. Department of Commerce Commercial Standards 191-53. Bernhardt will use internal materials which comply with these regulations in the production of items for shipment to California. All COM fabric should meet UFAC requirements.

All of Bernhardt's COM specification and documentation requirements must be met before a COM order will be put into production, including a signed declaration that the fabrics being provided meet all current state and federal regulations – a copy of which may be found under the Documents section of the Bernhardt Dealer Portal, or it may be obtained by contacting your local Bernhardt sales representative.

CUSHIONS

Bernhardt Exteriors seat cushion insert specifications are listed below. Each Bernhardt Exteriors design is paired with a specific cushion type based on the deck construction specified for the frame. The frame and the cushion are designed to work in unison to achieve maximum comfort. As such, the cushions are not interchangeable.

CUSHIONS	CONTENT	DESCRIPTION
Quick Dry Foam #1 	Reticulated Foam Core Polyester Fibers	The Quick Dry Foam cushion is created with a high resiliency reticulated polyfoam core. It is fully encased with a polyester fiber wrap. This cushion is designed for durability and comfort while retaining the crisp shape of the cushion. This cushion is standard for Exteriors dining chairs.
Exteriors Plush #2 	Polyfoam Core Synthetic Down	The Exteriors Plush #2 cushion is created with a high resiliency, polyfoam core of 1.8 lb/cu. ft. It is fully encased in a water resistant ticking with an anti-microbial synthetic down (faux down) jacket on top. This cushion is designed for a durable yet more carefree look and does require some maintenance. This cushion is standard for Exteriors upholstery unless otherwise noted.

CUTAWAY CUSHION SAMPLES

Cutaway samples of Bernhardt Exteriors cushions are available for purchase. Please specify the selection on your order.

CUTAWAY CUSHIONS	SKU#	SIZE	PRICE
Exteriors Plush #2	SCEX2CW	15" x 15" x 6"	\$50

BACK PILLOWS

FILLING	CONTENT	DESCRIPTION
Fiber 	Polyester Fibers	The Fiber Pillow is created with polyester fibers in a water resistant ticking for super resiliency.

THROW PILLOWS

FILLING	CONTENT	DESCRIPTION
Microfiber	Synthetic Down	The Microfiber Pillow is created using a synthetic down filling. It is fully encased in a water resistant ticking. The result is a pillow that offers fullness, recovers more quickly and creates a beautiful appearing pillow.

Prices shown are wholesale prices in US dollars.

THROW PILLOWS

These throw pillows are available for special order using any Exteriors fabric or any Exteriors vinyl.

CHARACTERISTICS, CARE AND MAINTENANCE

CHARACTERISTICS OF CUSHIONS, PILLOWS AND FULLY UPHOLSTERED SEATING

FULLY UPHOLSTERED SEATING

FRAME CONSTRUCTION

- Our fully upholstered seating is produced in North Carolina and is designed for both indoor and outdoor use.
- The frames are crafted of exterior grade Birch plywood with an all-weather webbing seat deck. Joints are reinforced using waterproof glue and stainless steel and nickel-plated hardware. Weep holes are added to the frame to prevent water from pooling.
- The upholstery process begins by covering the frames with a weather barrier material. Our outdoor rated fabrics are applied to the frame with stainless steel staples and all seams are sewn using a synthetic thread with UV protection.

SEAT CUSHIONS

- Designed for luxurious comfort, our Exteriors Plush Seat Cushion is used on all our fully upholstered seating. It is constructed of high resiliency 1.8lb/cu ft polyfoam core, topped with a lofty layer of anti-microbial synthetic down and fully encased in a water-resistant ticking. A mesh panel is stitched on the underside of the cushion to allow for water drainage.

BACK CUSHIONS AND PILLOWS

- Our back cushions and pillows are filled with polyester fiber wrapped in a water-resistant ticking that offers fullness yet relaxed comfort.

NON-UPHOLSTERED SEATING (WOVEN, METAL AND WOOD)

TIGHT CUSHION SEATING

- Our tight cushion seating, used mainly on accent chairs, is constructed with our Exteriors Plush Seat Cushion atop outdoor-grade webbing which has been attached to the frame with stainless steel staples. This seating is designed for luxurious comfort and maximum water resistance.

LOOSE CUSHION SEATING

- Our loose cushion seating is designed primarily with our Exteriors Plush cushion. It is constructed of high resiliency 1.8lb/cu ft polyfoam core, topped with a lofty layer of anti-microbial synthetic down and fully encased in a water-resistant ticking.
- Our dining chairs are designed primarily with our Quick Dry Foam Seat Cushion for a soft sit and a nice tailored look. It is constructed of high resiliency, reticulated foam with a soft polyfoam wrap for just the right amount of crown. The open cell foam allows for quick drainage if exposed to water and moisture.

BACK CUSHIONS

- Our back cushions and pillows are filled with polyester fiber wrapped in a water-resistant ticking that offers fullness yet relaxed comfort.

THROW PILLOWS

- All our throw pillows are created using a microfiber synthetic down filling, fully encased in a water-resistant ticking for a luxurious look and feel.

CARE AND MAINTENANCE OF CUSHIONS, PILLOWS AND FULLY UPHOLSTERED SEATING

GENERAL CARE

- To maintain structure and evenly distribute wear, frequently reshape and rotate back cushions and pillows.
- Occasionally vacuum your furniture fabrics and cushions using upholstery and crevice attachments to remove all dirt and debris before it becomes embedded in the fabric.
- For general fabric cleaning, use the following steps.
 - For light cleaning:
 - Lightly brush off or blot any loose dirt and light stains.
 - Blot or mist spray with a lukewarm water/mild detergent solution. Avoid over saturating.
 - Rinse with water until clean and allow to dry thoroughly.
 - For stubborn stains, mold and mildew:
 - Substitute the water/detergent solution with a bleach solution of 30 parts lukewarm water to 1-part liquid bleach.
 - Refer to our fabric listing on Bernhardt.com for specific cleaning instructions by fabric brand and stain type.
 - We do not recommend removing fabric covers from the cushion core.

CHARACTERISTICS, CARE AND MAINTENANCE (CONTINUED)

- While our fabrics are mildew resistant, spores that create mold and mildew thrive in environments where there is dirt and moisture. To deter build up, keep cushions clean and free of debris. Always remove wet cushions from furniture frames and allow to dry.
- If upholstery or cushions require extensive cleaning, please contact a professional.
- We strongly recommend storing your furniture under cover or covering it when not in use with our custom furniture covers to protect it from dirt, debris, heavy rain and inclement weather.
- Always ensure your furniture and fabrics are clean and dry before covering and storing.

CARING FOR CUSHIONS AND UPHOLSTERY IN THE RAIN

Choose the proper instructions based on the cushions specified for your furniture and avoid water standing on the surface of your cushions.

- Exteriors Plush Cushions (Fully upholstered frames) - If moisture does penetrate the fabric, open the zipper of the cover and dry the layer between the fabric and the sealed cushion using a towel. Excess water will continue to drain through the mesh panel on the underside.
- Exteriors Plush cushions (loose cushions) - Open the zipper of the fabric cover and set cushion on the zipper end to allow water to drain faster.
- Reticulated Foam Cushions - The open cell construction of this cushion allows water to drain through when wet. For saturated cushions, open the zipper of the cover and stand on end with zipper facing downward to allow excess water to drain through.
- Back Cushions and Throw Pillows - Open the zipper of the cover and stand on end with zipper facing downward to allow excess water to drain through.

CHARACTERISTICS AND CARE & MAINTENANCE OF TEAK

- Our teak furniture has a hand applied polyurethane finish to achieve a weathered look and feel. A six-step process is used applying multiple layers of PU stains, hand sanding and a final artisan dry brush finish, giving this furniture its desirable aged appearance.
- Like natural teak, our finished teak will slowly change color over time. After one to two years of exposure, the finish will give way to the natural silvery patina of aged teak.
- Although our teak furniture is finished, it does require cleaning and maintenance.
- To clean the finished teak, use a mild soap and water solution applied with a soft cloth or brush. Rinse thoroughly.
- To prevent water, moisture and food stains from penetrating into the teak, Golden Care Teak Shield can be applied to the surface. Prior to application, be sure to let new furniture sit outdoors for two weeks to allow the natural oils in the teak to be drawn to the surface.
- Imperfections, such as hair-line cracks, are natural to the teak aging process.
- When not in use or during inclement weather, store indoors or under cover using our protective furniture covers.

CHARACTERISTICS AND CARE & MAINTENANCE OF ALL-WEATHER WICKER

- Our All-Weather Wicker is made of superior strength, high-density polyethylene. Each fiber is created using a proprietary color blend that gives it rich visual depth.
- This high-performance material is intricately hand woven in a variety of artistic patterns, over an aluminum frame. Some of the woven patterns on sofas and chairs can take an artist several days to complete.
- This material is UV and mildew resistant and has been tested to maintain its color and to withstand cracking for up to five years.
- To preserve the look of your outdoor woven furniture, regularly clean it with a mild soap and water solution using a soft brush, cloth or water hose. Do not tug on the fibers while cleaning. Rinse thoroughly.
- If furniture is in a salty environment, rinse weekly to prevent accumulation of damaging salt deposits.
- When not in use or during inclement weather, store indoors or under cover using our protective furniture covers.

CHARACTERISTICS AND CARE & MAINTENANCE OF ROPE & KNITTED MATERIAL

- Our rope and knitted materials are designed with multifilament yarns artfully woven or wrapped in unique, dimensional patterns that give our furniture its distinct look.
- They are made from durable, solution dyed Olefin yarns. This fiber is UV, mold and mildew resistant.
- Lightly brush or vacuum the material regularly to avoid a buildup of dirt and debris.
- Wash occasionally using a 15:1 lukewarm water and mild detergent solution.
- Wipe and brush in the direction of the rope to reduce friction.
- When not in use or during inclement weather, store indoors or under cover using our protective furniture covers.

CHARACTERISTICS, CARE AND MAINTENANCE (CONTINUED)

CHARACTERISTICS AND CARE & MAINTENANCE OF STAINLESS STEEL

- Our stainless steel is 304-grade with a powder coat finish. This finish helps guard against corrosion and other deposits, when cleaned regularly.
- Although stainless steel is generally resistant to corrosion, the surface is susceptible to cosmetic deterioration from salt water and airborne chemicals. Superficial dark spots that may show on the surface do not affect the strength or integrity of the furniture.
- To clean these spots and to help prevent stains from building up, use a mild soap and water solution.

CHARACTERISTICS AND CARE & MAINTENANCE OF ALUMINUM

- All our aluminum frames are powder coated and fully welded for strength.
- Occasional cleaning of the aluminum frames is recommended using a soft cloth or sponge and a mild detergent mixed with lukewarm water to avoid buildup of salt and other potentially damaging deposits.
- Never use abrasive cleaners or brushes.
- To enhance and further protect the finish, a high-grade automotive paste wax can be applied to surfaces that are smooth.

CHARACTERISTICS AND CARE & MAINTENANCE OF CONCRETE & GLASS REINFORCED CONCRETE (GRC)

- GRC or Glass Reinforced Concrete consists of high-strength glass fiber embedded in a concrete composite.
- Our concrete and GRC furniture is hand finished with a protective layer of polyurethane.
- The organic beauty of concrete furniture is evident in the natural variations in color, small surface depressions and non-structural hairline cracks that can develop over time.
- The porous nature of concrete is susceptible to stains. Resealing the concrete regularly will help protect it from food stains, water damage and scratches.
- Quickly wipe up spills to keep them from penetrating the surface.
- Avoid placing acidic foods and oils on the surface.
- To prevent damage to your furniture, do not drag or place sharp objects on the surface. Use coasters, trivets and felt pads for additional protection.
- Do not allow moisture to collect at the bottom of items placed on the surface.
- Do not place hot materials directly on the surface.
- When not in use or during inclement weather, store indoors or under cover using our protective furniture covers.

CHARACTERISTICS AND CARE & MAINTENANCE OF STONECAST

- Our stonecast products are made of a composite of crushed stone, indigenous to Southeast Asia, mixed with resin and/or fiberglass.
- To create some of the sculptural shapes and to provide structure, some of our stonecast products may have an internal frame made from treated wood or metal.
- The finish of our stonecast products may patina over time.
- To keep stains from absorbing into the naturally porous surface, immediately blot spills and wipe clean with a soft, damp cloth.
- For regular cleaning, use mild soap and water solution. Be sure to rinse thoroughly.
- Avoid using chemicals and abrasives, as these will damage the surface.
- Avoid sitting or standing water on the surface.
- Move the furniture with care.
- When not in use or during inclement weather, store indoors or under cover using our protective furniture covers.

CHARACTERISTICS AND CARE & MAINTENANCE OF OUTDOOR FABRICS

- We have partnered premium brands, like Sunbrella, to create a unique collection of fabrics designed to perform, endure and correlate beautifully with our furniture. The ultimate goal is to create a premium product that will not only last, but will also elevate the look and feel of your outdoor space.
- The collection boasts a fresh, modern color palette with an array of patterns, luxurious textures, as well as clean, classic plains.
- All our outdoor fabrics are made from 100% solution dyed yarns, so the performance features are not just an applied finish but are engineered into the fibers. As a result, each fabric will maintain its rich color and durability through normal wear and tear and exposure to the elements.
- Our exclusive line of trims offers the perfect finishing touch and allows you to create a look that is uniquely your own.
- Below is a general overview of the contents, features and cleanability of each brand. For detailed cleaning instructions by brand and stain type, visit Bernhardt.com

CHARACTERISTICS, CARE AND MAINTENANCE (CONTINUED)

BRAND	CONTENT*	FEATURES/BENEFITS	CLEANABILITY
Sunbrella	98% - 100% Solution Dyed Acrylic, Up to 2% Other	*UV stable *Fade resistant *Water resistant *Stain resistant *Mold and mildew resistant	Mild soap and water solution 1 cup bleach, 1/4 cup mild soap to 1 gallon water
Revolution	100% Solution Dyed Olefin made with upcycled fibers	*UV stable *Fade resistant *Water resistant *Stain resistant *Anti-microbial	Mild soap and water solution 1 oz bleach to 30 oz water
Outdura	100% Solution Dyed Acrylic	*UV stable *Fade resistant *Water resistant *Stain resistant *Mold and mildew resistant	Mild soap and water solution 10% bleach to water solution
Inside Out	96% Solution Dyed Acrylic, 4% Olefin	*Water repellent *Fade resistant *Mold and mildew resistant	Mild soap and water solution 1 oz bleach to 4 oz water
Inside Out Endurance Leather	80% Thermo Polyurethane, 20% Polyester	*Water repellent *Fade resistant *Mold and mildew resistant	Mild soap and water solution 1 oz bleach to 30 oz water

NOTE: Some patterns may contain small amounts of other fibers.

CONSUMER ALERT

Keep your furniture and family safe from fires caused by careless smoking. Do not smoke when drowsy. Immediately remove any glowing ember or lighted cigarette which falls on furniture. Smoldering smoking materials can cause upholstered furniture fires.

FABRIC APPLICATIONS

- When a single cushion is wider than the fabric and the direction of the fabric pattern will not allow railroad application, the cushion will require seaming.
- We do not guarantee dye lot matches of fabric samples or cuttings to the fabric which will be applied to your order.
- All retail or in-home fabric treatments void the warranty.
- Under normal use, all fabrics will show some degree of wear. Regular vacuuming of the upholstery is recommended. Abuse, pets, and prolonged exposure to sunlight may decrease the life expectancy of the fabric.
- The fibers of some fabrics will retain pressure marks over time.
- Cut yardage fabrics are swatched as they will be applied, not as they come off the roll.
- The majority of our upholstery frames may be ordered in an inside-outside fabric application. The inside is defined as the seat cushions, back pillows, and throw pillows. The remainder of the item is defined as the outside.

MATERIALS AND FINISHES

The following materials are available on items only as shown.

All-Weather Wicker
in Dark Thatch

All-Weather Wicker
in Pampas

All-Weather Wicker
in Saddle

Dekton Ultra Compact
Surface in White Shell

Flat Braided Rope
in Charcoal Mist

Flat Rope Weave
in Grey Flannel

Glass-Reinforced
Concrete in Dark Ash

Glass-Reinforced
Concrete in Quarry

Glass-Reinforced
Concrete in Sand Grey

BERNHARDT EXTERIORS
FURNITURE COVERS

FURNITURE COVERS

Our luxury furniture covers are custom ordered and designed to fit each piece in the Bernhardt Exteriors collection, giving you an extra layer of protection for our stunning outdoor furniture designs. The covers are durable, yet lightweight and breathable. They offer a strong defense against moisture, UV rays, mold, mildew, and dust.

FEATURES OF OUR COVERS

- Covers are constructed of Sur Last, a 100% solution-dyed 600 denier woven polyester, finished with a solvent-based, water repellent treatment. This specially formulated urethane coating is gentle on sensitive surfaces.
- The breathable fabric features a high mold and mildew resistance when covering furniture and cushions that have been properly cleaned and dried.
- Covers resist water, shrinking, fading, UV rays, and severe weather.
- Incredibly durable, the covers are tear- and stretch-resistant, beautifully holding their shape thanks to their tensile strength in both warp and fill directions.
- Table covers include tenting pieces that will allow water to drain away from surfaces.
- A tailored cover is available for each sectional component and easily zips to the next piece to ensure the entire sectional is protected.
- Covers stay securely in place with straps and a self-release buckle or pull cord

INSTRUCTIONS FOR USE

- Ensure all furniture and cushions are thoroughly cleaned and dried before applying covers.
- To ensure a proper fit, remove any decorative throw pillows. Lay the back cushions flat on top of the seat cushions. This will help water stream down the front of the cover instead of pooling on the surface.
- We strongly recommend storing cushions in a dry place when not in use for an extended period of time and during periods of severe and inclement weather.
- If your furniture cover includes a zipper, be sure zipper is open before applying cover.
- Place covers over furniture so that the description label on the inside seam is in the front. If the cover has straps and buckles, the short strap and buckle should be in front, with the long straps in the back.
- Slip the long straps underneath the furniture and clip to the buckle, adjusting strap for a tight fit.
- To maximize fit, some covers come with pull cords instead of strapping. Simply cinch the cord for a snug fit.
- Covers for dining tables come with tents that should be placed underneath the cover, tall side up, on the table surface and lined up to fit inside the darts sewn onto the top of the cover. These tents raise the fabric from the surface of the table, keeping water from pooling. Never allow water to pool on the surface of the covers.
- For sectionals, with your furniture still configured, place each cover over the appropriate piece with the inside tag in the front and the long straps in the back. Zip all sections together. Slip the long strap underneath the frame and snap into front buckle. Pull to adjust straps if necessary.
- If your sectional is configured with armless sides on the end, be sure to order the appropriate side panels for each open, armless end.

CARE AND CLEANING

- Sur Last is designed for easy maintenance. It can be washed, or brushed off and rinsed.
- For routine care, spray off dirt and debris with water and allow to dry.
- For a more in depth cleaning, add 2 ounces of mild soap to 1 gallon of lukewarm water. Clean the fabric with a soft bristle brush. Rinse thoroughly and air dry.

FURNITURE COVERS SHIPPING PROCESS

- The “ship to” address will be the address of the dealer/retailer.
- Standard lead-time is 12 business days..
- All orders ship via Fed Ex in 12 business days.
- Charges for shipping via Fed Ex will be handled as a “Pre-pay and Add” on each invoice in accordance with the schedule rates per state.
 - Charges are based on small, individual orders.
 - Larger stock orders will require a quote.
 - Shipments outside the continental US will need to be quoted.
 - Orders for outdoor furniture covers have the same sales tax implications as all other product we sell.*
- All covers are made to order and cannot be canceled.

* Orders for outdoor furniture covers have the same sales tax implications as all other products we sell. Since we are based in North Carolina, sales tax is based upon the shipping destination of the customer's products. We may need to add sales tax for shipments to the following registered states (NC, FL, CA, NY, IL, TX, TN, VA, OK, KS), if we do not have a valid resale tax certificate or exemption certificate on file for the customer. The destination state's drop shipment rules may apply based upon how the shipment is structured.
